

## Porcine IDetect™ Chromosome X & Y Probes

PFA fixed, paraffinized tissue samples of the porcine liver demonstrating the Porcine IDetect™ Chromosome Y Paint Probe, Red Label, cat # IDPR1066.

Image Courtesy of Department for General, Visceral and Transplantation Surgery, Experimental Surgery and Regenerative Medicine, Sauer et al. Universitätsmedizin Berlin, Germany

Female pig skeletal muscle was injected with male pig bone marrow mesenchymal cells (BMMSCs). Above dotted line: Female skeletal muscle cells, no male BMMSCs visible -Red Chr Y signal Absent Below dotted line: Male BMMSCs visible -Red Chr Y signal. Porcine IDetect™ Chr Y Paint Probe, Red Label, cat # IDPR1066.

Porcine Chromosome	Format	Catalog #
X	Red	IDPR1077
	Green	IDPF1076
Y	Red	IDPR1066
	Green	IDPF1065

Other Selective Cytogenetics FISH IDetect™ Probes Available:

- Mouse IDetect™ Chromosome Probes
- Rat IDetect™ Chromosome Probes
- Bovine IDetect™ Chromosome Probes
- Human IDetect™ Chromosomes Probes
